Shoe construction

Sole: Non-slip super grip, made of a layer of nitrile rubber (glued directly to the upper, with a density of 1.0 g/cm³), more resistant to abrasion because it is the most compact, as well as being resistant to energy absorption in the heel, fuel oil and slipping on ceramic and steel floors (SRC).

Upper: Made of polymeric material (EVA - Ethyl Vinyl Acetate).

OBS: Free of phthalates, a set of restrictive chemical substances that are harmful to people's health, causing negative effects on the environment and human health. Phthalates are associated with the occurrence of reproductive problems in wild animals, and in humans the effects can be: the appearance of breast cancer, hormonal dysregulation and reduced fertility.

Hygienic insole: made of EVA with micro-dots that absorb and desorb sweat.

Color: Black / Gray

Simple numbering: 33 to 47

Combined numbering: 44/45 - 46/47

Technical Information

Approval NBR ISO 20347:2015.

Validity 60 months - The validity of the equipment begins with the date of manufacture engraved on the shoe.

Weight per foot 0.260kg

Heel height 86 mm

(Note: The height of the shaft is based on shoe number 40, and may vary by 3.33mm per shoe number).

Packaging:

- Sizes: L 327mm x W 217mm x H 123mm (Individual box)

- Sizes: L 643mm x W 233mm x H 346mm (Collective box for up to 5 pairs)
